

**Tawanda
Hopley,
Harare
Zimbabwe**

Welcome to Hopley!
My name is Tawanda

This morning we are helping
out with a campaign to
clean up the neighbourhood.
You can see my wife there...

Are you busy, brother? We
have plenty of sacks to fill

Maybe
tomorrow

Inspiring people
to look after
the area is
hard work -!

There are these illegal
shebeens* where you
find drunkenness and
prostitution, even in
the day-time...

...I used to be on the local
development committee.
I tried to change things
but it is very hard to
make a difference here.

My eldest girl must walk three kilometres to reach
her school. Soon the others will join her. I worry
about them being hit on the busy road.

There is still no electricity in
my area and the water system
fails all the time...

...Two years ago, my
youngest daughter
contracted typhoid
from the school well

Today thank goodness
she is OK. All I want
for my family is a
better start than-

Tawanda, aren't
you late for work?

Eh!

You're
right!

Hygiene is a big problem. We must
try to keep our environment clean
so we don't get sick. We have no
hospital here - only a clinic.

Even still, sewage can
sometimes contaminate
the bore-holes...

We thought she might
die. My wife stayed
by her bedside for
five nights at the
hospital in Nazareth

I had
better
run!

Good luck!
See you at
home later!
