### How to play:

- The idea of the game is to collect whole families.
- At least three players are required
- Shuffle the cards
- All of the cards are dealt as equally as possible.
- Play starts by the first player (usually on the dealer's left) asking for a certain card. The player must already hold one of that family and asks just one other player.
- If the other player does not have the card it is then their turn to ask.
- If they do have the card, they have to pass it to the first player, who can ask again.
- As players form sets of 4 they place them face down in front and the winner is the player with the most 'families' once all the cards have been laid.
