

Wetlands fact recording sheet

1. What do you already know about wetlands? How do you think they help people and the environment?

...

2. Write in this box what you now know. You will do this at the end of the lesson so leave it blank for now.

3. After watching the video, complete the flow diagram below to explain how wetlands work. To do this, write the correct number in next to the statement to make a sequence.

4. Where and what are the Nimr Reed Beds?

Write a brief description of where the Nimr Reed Beds are below. You could also draw a little map to help you remember.

5. Write down 2- 3 facts about the Nimr Reed Bed using the bullet points below:

- a.
- b.
- c.

6. Now, go back to the top of the sheet and fill in the box from question 2 about what you now know. Think about how wetlands help people and the environment especially the Nimr Reed Beds.
