

Barking Park Assessment: How can we improve Barking Park so that it can be awarded Green Flag Status?

Your task is, as a small group of 2 or 3, to present a report to Barking Park Management Group. This can be done as either a Word Document or a PowerPoint report. There is a PowerPoint report saved on the shared area.

Your report should include the following points:

1. An Evaluation of Barking Park

- a. WHAT is the Park like now?
- b. What are the GOOD Points? WHY?
- c. What are the BAD Points? WHY?

Use photos to support your evaluation.

It is important that you give justifying reasons for your statements about why places are good or bad. For example: "We do not think the park is very welcoming because there are no signs at entrances saying welcome, there are no signs stating what facilities are available or how to get to these."

2. Proposals of what could be done to improve the park.

Refer to the 3 possible areas for development that we saw in the park. Try to include a range of about 4 or 5 contrasting but sensible proposals. They could be contrasting by appealing to different age, cultural or interest groups.

- a. For each proposal explain **WHAT** you would do and, more importantly, **WHY** you would do it.
- b. Illustrate each proposal with one or more images of your proposal and how it has been used somewhere else. Good examples of what has been done in other parks can be found on the Green Flag Parks website (<http://www.greenflagaward.org.uk/winners/greater-london/>)
- c. Top candidates would refer to how their proposals would help Barking Park meet the Green Flag Criteria.
