New Panel

This workflow is for submitting overview details for a Panel (organised session).

1. Details of Panels must only be submitted by session convenors. You will then be provided with a direct submission link that you can share with your session contributors, to allow them to submit details of their papers/contributions to your session.
2. IMPORTANT - if you are planning to have two timeslots for your session, you MUST submit this form twice - one per timeslot. For example - Urban Geographies (1) and Urban Geographies (2), with all the presenters for Urban Geographies (1) allocated to that timeslot/Panel.
 1. You will have TWO shareable links for your session contributors - please make sure you send them the correct link for the timeslot to which you'd like to allocate them.
3. Please select the 'Panels (to submit session overview details only)' track.
4. if your session is organised as a panel, roundtable, workshop, etc. where contributors will not have separate titles and abstracts for their contributions: please list all contributors as 'Discussants' in the 'Roles' screen.
5. If your session is sponsored by a Research Group, please select the relevant group from the list of available topics. Un-sponsored sessions should select 'Annual Conference 2025 only'.
6. Please skip the pages of additional questions for 'Open call for papers authors' and 'Panel (organised session) paper contributors' - leave the answers blank.
7. You will be asked to select whether you would like your session to be in-person, hybrid or online. If you would like to apply for a hybrid format, please also complete the additional question for this. Applications will be assessed against the following criteria:
 1. Clear plan for how to make the most of hybrid capacity, including how you will engage both in-person and online participants and attendees
 2. Innovative uses of the hybrid format and capacity
 3. Who you wish to include as session contributors and participants, and how they would benefit from the hybrid format
 4. Plan for sharing any recorded content after the session
